

Newcastle West End Foodbank

Use of Foodbank/Private Vehicles Policy

Version No.: 2.2
Effective From: March 2022
Review Date: March 2024

1 Rationale

From time to time the Newcastle West End Foodbank (WEFB) may require staff or volunteers to undertake journeys using either the Foodbank vehicles or their own personal transport.

This policy, along with the associated paperwork, provides a framework to ensure compliance with regulations, the safety of staff and volunteers and to offer clear guidelines re subsistence allowances and the claiming of mileage allowances.

2 Organisational Responsibility

The Foodbank Manager, or other member of the Management Team will have responsibility for the planning of any journeys, liaising with the staff/volunteer driver(s) and ensuring the Foodbank vehicle is correctly resourced and road worthy. They will also provide, where necessary, a subsistence allowance to cover overnight accommodation and meals. All journeys will be recorded on the **Mileage and Vehicle Check Record Sheet** (Appendix 1).

3 Local Journeys

A **weekly schedule of regular journeys** (Appendix 2) will be created to ensure the work of the Foodbank continues if there is a change of driver.

All local journeys should be agreed with the Foodbank Management Team prior to undertaking such journeys to ensure they do not put at risk the main focus of the Foodbank in supplying food to people in need.

Volunteers may undertake local journeys using their own vehicles and claim a mileage rate of 45p per mile, however, please see paragraph 5 below concerning insurance cover. Such journeys must be agreed with the Foodbank Management Team prior to the journey. The appropriate claim form must be completed and be signed by both the volunteer and a Foodbank Manager.

4 Return Journeys over 100 miles

It may be necessary for staff or volunteers to undertake long-distance journeys to further the work of the Foodbank.

- Planning for such journeys is vital to allow for proper organisation of resources. Where possible Foodbank vehicles should be used.
- Drivers will be need to adhere to regulations requiring drivers to take appropriate breaks and rest periods and to record them on the **Driver Break and Rest Period Record Sheet** (Appendix 3).
- A subsistence allowance of up to £20 per day will be paid for return journeys of 200 + miles. Receipts will need to be submitted and any underspend return.
- An overnight allowance of £60 per night will be paid for journeys over 400 miles in total.
- On very rare occasions staff or volunteers will be required to undertake longer journeys in their own vehicles. A mileage rate of 45p per mile will be paid along with the subsistence allowance and where necessary the overnight allowance, where appropriate.

5 Insurance Cover

Employees and volunteers should be aware that anyone who uses their own vehicle for the purposes of their work needs to take out business car insurance. This is different to a standard policy, which only provides cover for social use and commuting.

Business car insurance can cover a wide range of uses, such as travelling between different work locations, visiting clients and suppliers or driving around other employees: anything, in fact, that is on behalf of WEFB.

Staff and volunteers cannot use their own vehicle and claim expenses unless they have provided evidence that they have business use insurance in place before they commit to making a journey

If business car insurance is not in place and an accident does occur, staff and volunteers need to note that this could lead to their policy being invalidated.

Vehicles belonging to WEFB will have appropriate insurance in place.

6 Accidents & Emergencies:

All accidents and emergencies need to be reported to the Foodbank Manager as soon as possible. Drivers will need to complete the Foodbank Accident Book and where necessary an Incident Form.

7 Equality and Diversity

WEFB is committed to ensuring that it treats its employees and volunteers fairly equitably and reasonably and that it does not discriminate against individuals or groups on the basis of their ethnic origin, physical or mental abilities, gender, age, religious beliefs or sexual orientation. This policy has been appropriately assessed.

8 Monitoring and Compliance

WEFB will maintain effective monitoring systems to ensure implementation of this policy, including the following:

Standard/ process / issue	Monitoring and audit			
	Method:	By:	Reporting to:	Frequency:
Mileage and Vehicle Check Record Sheets completed correctly and kept up to date	Audit	Line Manager	CEO	Quarterly
